MODULE 2 – HOLOGRAPHIC MIND

1) RIGHT /LEFT BRAIN FUNCTIONS

The analytical left brain is connected to the 3D particle field of matter...to the physical body. The intuitive right brain is connected to the holographic, virtual particle field of Spirit, to the energy body and the virtual particle field. The right brain connects to the multi-dimensional world of visions and imagination, intuition, new ideas and soul connection. The Time Matrix severed connection between both brains. We need to use both left and right brain synergy to access higher dimensional realms and ascend into Soul Union.

MODULE 2 – HOLOGRAPHIC MIND

1) RIGHT /LEFT BRAIN FUNCTIONS

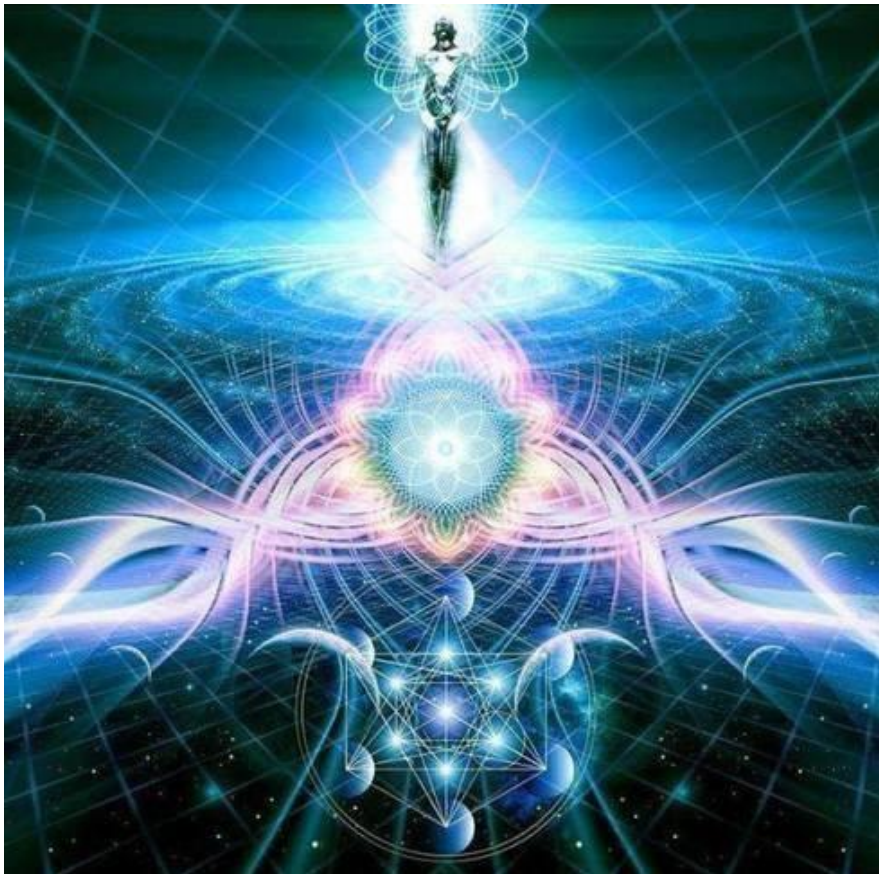

To flourish in the increasingly expanding world, we need to engage more of the right brain qualities. A right-brained personality will tend to view things in a holistic way, rather than paying attention to finer details. He has an ability to understand and appreciate the bigger picture, the larger meaning of things. Even at rest, right-brain creative people tend to solve problems with sudden insights of *knowing*, which are commonly called “Aha! Moments”.

Research studies show the right brain solves problems through “remote” associations, visual information and spontaneous thought. We need to strengthen and develop right-brain qualities. As powerful a tool as our mind is, if we do not use it regularly to access more of the 8 billion bits of hidden consciousness and the holographic template of non-coding DNA, we will continue to function as limited *3D automatons*. An integrated mind displays more characteristics of both right and left brained people.

MODULE 2 – HOLOGRAPHIC MIND

2) TRANSMITTER/RECEIVER

Humans are transmitters and receivers of energy waves, frequencies, and intuitive non-verbal communication. Quantum coherence, or coherent energy at the subatomic level, enhances the interactive communication between energy waves. A coherent state increases the amount of energy transferred by the wave and its impact on matter. When two energy waves cross, the higher frequency wave lifts the lower wave into higher range.

The incoming solar waves of plasma light are activating hidden Soul code dormant in the energetic body...igniting a new level of subatomic activity not seen before. We are becoming human radio antenna towers!

MODULE 2 – HOLOGRAPHIC MIND

2) TRANSMITTER/RECEIVER

Research reveals a dynamic, two-way communication network between the heart and brain. The right-left brain and mind-matter connection was disrupted by the Matrix simulation. When using the Quantum Vortex meditation, we can repair any disconnection between the left and right brain. We are recoding the brain to be attuned in entrainment with the heart again. Heightened states of increased heart rhythm coherence opens the intuitive channel to Soul communication.

The Zero Point Field is where matter and anti-matter merge to create new realities. It is the null-zone where physical and spiritual unite at the heart and brain center.

MODULE 2 – HOLOGRAPHIC MIND

3) MIND CONTROL

The Matrix operates like an overlay grid that runs in the background. It appears energetically like an oppressive black web plugged into the primal reptilian brain stem, spine and chakras. Most of our thoughts are not our own. Negative feelings are stimulated by the divisive programming.

Time compression disconnects us from Soul Presence and the abundant universe. It creates an artificial reality of separation. The dual spin momentum traps us in a continuous state of isolation and limitation.

We need to disengage from the entire corrupted system in order to activate our Divine lineage. As we break free from the Matrix programming, past life trauma and ancestral patterns, we raise our energy frequency and dissolve the hold the dark web has on us.

MODULE 2 – HOLOGRAPHIC MIND

4) CONSCIOUS VISUALIZATION

When masculine and feminine, soul and human self unite as One, the body/heart/mind elevates into a state of complete wholeness, eliminating all ego neediness and parasitic behavior. Inner balance and emotional mastery sets us FREE! Creative visualization and conscious intentions are the methods of communication between the higher mind of Spirit and the lower mind of the human psyche.

You can consciously choose your holographic reality from the vast quantum field by refining and raising your brainwave frequencies and intentioned focus. You have the ability to switch channels any moment you desire with your mind's consciousness, just like clicking the remote to a new channel of reality.

MODULE 2 – HOLOGRAPHIC MIND

4) CONSCIOUS VISUALIZATION

By spinning zero-point balance in the Quantum Vortex, all negative and positive forces interact, blend, harmonize and amplify to eliminate negative polarity and create Light Presence in the mind and 3rd Eye. When LIGHT is alive and activated in the holographic mind, our visualizations are projected into the quantum field, carrying light with them. Photon light is the carrier of consciousness, the intelligent instructions that particulates electrons into physical matter.

1. Start a vision board of selected images, photos, intentions and affirmations that energize you! Select visual images that you respond to emotionally and physically, without thought. This is a clear sign they are an energetic match to your Soul truth and purpose.
2. As you tap into the power of the right-brain holographic mind, spend time in the Quantum Vortex visualizing your intentioned reality. Place yourself in the future outcome of your visions, feeling alive with heart's passion and inner magnetism. When we show up and commit 100% to our truth, we are fully present in the NOW Moment. When we are devoted to our Soul purpose and destiny, the Universe will show up and support us!
